Mr. William Henderson
Sidney-Richland Regional Airport
540 Airport Road
Sidney, MT 59270

Dear Mr. Henderson,

The Department of Homeland Security, Transportation Security Administration (TSA) is pleased to inform you that the Sidney-Richland Regional Airport has been approved for federalization. Once this process is completed, your airport will fall under Mr. Dan Fevold, Federal Security Director at Billings Logan International Airport, for purposes of regulatory oversight and compliance with the Transportation Security Regulations (49 CFR Part 1542). Pursuant to those regulations, your airport is required to develop an Airport Security Program that must be approved by Mr. Fevold prior to commencing commercial flight operations as a federalized airport.

We have received your airport's application for participation in the Screening Partnership Program and it is being reviewed through our internal process.

Mr. Fevold will be constantly updated on the progress of your airport's application and will serve as TSA's central point of contact for all of the Montana airports. Should you have any other questions, please contact our TSA federalization point of contact, Mr. Randy Webb, at (571) 227-1037.

Sincerely yours,

Morris McGowan
Assistant Administrator
for Security Operations

CC: Dan Fevold
